

## TYPO3.Fluid - Bug # 58972

<b>Status:</b>	Closed	<b>Priority:</b>	Should have
<b>Author:</b>	Carsten Bleicker	<b>Category:</b>	ViewHelpers
<b>Created:</b>	2014-05-20	<b>Assigned To:</b>	Bastian Waidelich
<b>Updated:</b>	2014-05-21	<b>Due date:</b>	
<b>Has patch:</b>	No		
<b>Affected Flow version:</b>	Git master		
<b>Subject:</b>	DateViewHelper property "forceLocale" not passed as boolean		
<b>Description</b>	<p>As far as i understand this should check localisationService.</p> <pre>&lt;f:format.date forceLocale="true"&gt;{document.dateTime}&lt;/f:format.date&gt;</pre> <p>But boolean is not really passed to \TYPO3\Fluid\Core\ViewHelper\AbstractLocaleAwareViewHelper::getLocale?</p>		

### History

#### #1 - 2014-05-20 22:19 - Carsten Bleicker

Results in:

"true" is not a valid locale identifier. (20140520201641f4700c)

#### #2 - 2014-05-21 10:20 - Bastian Waidelich

- Category set to ViewHelpers
- Status changed from New to Needs Feedback
- Assigned To set to Bastian Waidelich

Because the "forceLocale" argument is of type "mixed" there is no type conversion taking place (one reason why we should avoid mixed type hints..).

Try

```
1<f:format.date forceLocale="{true}">{document.dateTime}</f:format.date>
```

or

```
1{document.dateTime -> f:format.date(forceLocale: true)}
```

#### #3 - 2014-05-21 15:33 - Carsten Bleicker

Thank you bastian!

It works:

```
<f:format.date forceLocale="{true}" localeFormatType="date">{dateTime}</f:format.date>
```

Can you close this issue?

**#4 - 2014-05-21 15:43 - Bastian Waidelich**

- Status changed from Needs Feedback to Closed
