Updated:	2015-01-23	**Due date:**	
TYPO3 Version:	6.2		
PHP Version:	5.3		
Complexity:	hard		
Sprint Focus:			
Subject:	Workspace module shows unmodified values		

Description

The workspace module shows field values that have not been modified by a user. This can be reproduced by e.g. creating a new text with images element in a workspace, but without any image.

This can be enhanced by using better defaults for records:

- NULL vs. empty string for the "image" field for example
- skipping empty and system values in the workspace module view

History

#1 - 2015-01-23 11:33 - Mathias Schreiber

- Target version set to 7.5
