[BUGFIX] Add additional TS for contentRenderingTemplates loaded by file

Loading extensions TS, that provide contentRenderingTemplates, like css_styled_content, using INCLUDE_TYPOSCRIPT was fixed in <https://review.typo3.org/#/c/21679/>.

Since making TS content templates more flexible in <https://review.typo3.org/#/c/27587/> the contentRenderingTemplates wasn't added to "defaultTypoScript_setup." and "defaultTypoScript_constants." arrays anymore and breaks the mentioned fix.

Solution is to check the required key in contentRenderingTemplates and add the defaultContentRendering string now.

Resolves: #59318

Releases: 6.2
