| **Description** |
|---|

As soon I've udpate my TYPO3 4.5.30 to 4.5.31.

The images that I add in a content element "Text and Images" are not show anymore in the Front-End preview.
This happend on preview only.  (before any validation)
As soon the content is online (after valiation), it's working fine. Content is avalaible for all users.

I've update to 4.5.32 and 4.5.34, but the problem is still present.

Thank's for you help,
