Subject:	Add support for Doctrine 2.5 embeddables		
Description			

Doctrine 2.5 will finally support ValueObjects in the form of @Embedded/@Embeddable:
https://github.com/doctrine/doctrine2/pull/835
https://github.com/schmittjoh/doctrine2/commit/9ad376c0064fae0c8ae6f6c3e15406936323727c

Flow should add support for this feature and extend ValueObjects to be embedded through an annotation setting.
