Subject:	Improve UI of "Insert link" feature		

Description

After selecting text it is possible to add a link via the "Insert link" icon. Clicking the icon opens a text input prefilled with "http://". Currently it is unclear that it is possible to search for nodes by typing.

Maybe the placeholder text should be changed to make this clear.

Hi Leon

Thanks for reporting btw. just moving it to our new project management tool instead.

Best regards
Aske
