Revision f96c1013 - 2014-09-14 13:53 - Alexander Stehlik

[BUGFIX] Improve I10n_mode config for sys_file_reference

Since the rendering in the Frontend does not merge the values the mergelfNotBlank setting is replaced with prefixLangTitle for the alternative, description and title field.

For the link field the mergelfNotBlank setting is removed because a prefix does not make sense there.
