TYPO3.Flow - Bug # 6059

Status:	Resolved	**Priority:**	Must have
Author:	Zach Davis	**Category:**	Core
Created:	2010-01-16	**Assigned To:**	Robert Lemke
Updated:	2010-10-20	**Due date:**	2010-01-18

PHP Version:	
Has patch:	
Complexity:	
Affected Flow version:	
Subject:	./flow3 - wrong package controller

Description

I believe that line 127 should be changed from:

CONTROLLER='Manager'

to:

CONTROLLER='PackageManager'

Seems that when classes were renamed, perhaps they didn't get renamed in the flow3 script (see related bug 6047)

Associated revisions

Revision 9d932ee2 - 2010-01-18 10:12 - Robert Lemke

[+BUGFIX] FLOW3 (Core): Fixed the controller class names in the flow3 bash script. Resolves #6059 and resolves #6047
