

TYPO3.Fluid - Bug # 6087

Status:	Closed	Priority:	Won't have this time
Author:	Stefan Froemken	Category:	Core
Created:	2010-01-18	Assigned To:	
Updated:	2010-10-20	Due date:	
Has patch:			
Affected Flow version:			
Subject:	#1251730702: The value must be of type "Tx_Sffluid_Domain_Model_Customer", but was of type "array".		
Description			
<p>Hello...I just try to learn Fluid, but when I want to save some values following error appears:</p>			
#1251730702: The value must be of type "Tx_Sffluid_Domain_Model_Customer", but was of type "array".			
edit.html:			
<pre><p class="bodytext">Editieren Sie den Kunden:</p> <f:form method="post" action="update" name="customer" object="{customer}"> <label for="firstname">Vorname</label>
 <f:form.textbox property="firstname" />
 <label for="lastname">Nachname</label>
 <f:form.textbox property="lastname" />
 <f:form.submit class="submit" value="Submit"/> </f:form></pre>			
CustomerController.php:			
<pre>class Tx_Sffluid_Controller_CustomerController extends Tx_Extbase_MVC_Controller_ActionController { protected \$customerRepository; public function initializeAction() { \$this->customerRepository= t3lib_div::makeInstance('Tx_Sffluid_Domain_Repository_CustomerRepository'); } public function indexAction() { \$this->view->assign('zahl', 12); \$this->view->assign('customers', \$this->customerRepository->findAll()); } public function editAction(Tx_Sffluid_Domain_Model_Customer \$customer) { \$this->view->assign('customer', \$customer); } public function updateAction(Tx_Sffluid_Domain_Model_Customer \$customer) { \$this->customerRepository->update(\$customer); \$this->flashMessages->add('Der Kunde wurde aktualisiert.');</pre>			
I can't find an error. The code is nearly the same as in blog_example. What's wrong here?!			
Stefan Frömken			
Fluid: 1.0.2			
TYPO3: 4.3.1			

History

#1 - 2010-01-19 09:09 - Stefan Froemken

- % Done changed from 0 to 100

I found it: Without comments FLOW3 don't converts the array to an object.

For every variable in model-file you have to add an comment like this:

```
/** * The customer's first name. * * @var string  
*/
```

#2 - 2010-06-18 14:49 - Sebastian Kurfuerst

- Status changed from New to Closed

- Priority changed from Should have to Won't have this time
