Updated:	2010-10-20	**Due date:**	

Sprint:	
PHP Version:	
Has patch:	
Complexity:	
Subject:	Reorganize and clean up persistence backend

Description

The new persistence backend layer needs to be cleaned up a little:

- move data mapper alongside backend (they are technically dependent anyway)
- add data mapper interface
- augment backend interface so it is actually useful for creating new backends
