Subject:	calculateBasePath of LocalDriver does not properly sanitize value		
Description			
<p>The method "calculateBasePath" of Resource/Driver/LocalDriver.php does not properly sanitize the passed value. It misses to use the return value of "canonicalizeAndCheckFilePath".</p> <p>This would result in problems when using "/fileadmin/" as "Base path" in a sys_file_storage record being set to "relative". It would also not remove the "/../" of a sys_file_storage base path like "/var/www/mysite/fileadmin/../../somewhereelse/" when being set to absolute.</p> <p>Patch with unit tests sent to gerrit.</p>
