Revision d4490a8d - 2010-03-02 17:05 - Andreas Förthner

[+TASK] FLOW3 (Security): The security context has now a method `getParty()` which returns the party of the first authenticated account. This method is e.g. used for runtime evaluations (`current.party`) in AOP or the security policy. Resolves #6135

History

#1 - 2010-02-25 18:22 - Andreas Förthner

- Subject changed from *Authentication Manager has to make sure that only one Party can be authenticated at the time* to *Authentication Manager has to make sure that only one Party can be authenticated at a time*
- Target version set to *1.0 alpha 8*

#2 - 2010-02-25 18:50 - Andreas Förthner

- Status changed from *New* to *Accepted*

#3 - 2010-03-01 23:33 - Andreas Förthner

BTW: We have to provide a `getParty()` method in the security context, as it is already used by the policy service....

#4 - 2010-03-02 18:00 - Andreas Förthner

- Status changed from *Accepted* to *Resolved*
- % Done changed from *0* to *100*

Applied in changeset r3897.
