

TYPO3.Fluid - Bug # 6287

Status:	Closed	Priority:	Should have
Author:	Michael Sauter	Category:	
Created:	2010-01-30	Assigned To:	
Updated:	2011-05-06	Due date:	
Has patch:			
Affected Flow version:			
Subject:	Fluid User Manual outdated / missing information		
Description			
<p>I wrote my first ViewHelper and noticed that the manual has some bugs (I guess it's just outdated).</p> <p>It's mentioned several times that a ViewHelper must extend F3\Fluid\Core\AbstractViewHelper, but this resides in F3\Fluid\Core\ViewHelper\AbstractViewHelper now.</p> <p>Also, example 2.6 (for loop) doesn't note that the ViewHelper must be of scope prototype, maybe that should be included in the source code? And of course this class should also extend F3\Fluid\Core\ViewHelper\AbstractViewHelper.</p>			

History

- Status changed from New to Closed

we'll soon update the whole documentation.

Thanks for the notice!

Greetings,
Sebastian
