

Core - Bug # 63722

Story # 63720 (Closed): Make class loader more robust against crashes.

Status:	Closed	Priority:	Should have
Author:	Alexander Opitz	Category:	Backend API
Created:	2014-12-10	Assigned To:	Alexander Opitz
Updated:	2015-05-25	Due date:	
TYPO3 Version:	6.2		
PHP Version:			
Complexity:			
Is Regression:	No		
Sprint Focus:			
Subject:	Stop flush class loader cache while rebuilding class loader.		
Description			
At the moment it is possible to run clear class loader cache, while the cache is generated. This leads to the possibility that only half of data is fully saved afterwards or maybe data can't be saved as the directory is shortly away while flushing.
