Subject:	Fix phpDoc of FluidTemplateContentObject::render		

Description
The phpDoc of \TYPO3\CMS\Frontend\ContentObject\FluidTemplateContentObject::render mentions support of stdWrap but it is not supported in 6.2

While trying to fix the phpdoc for 6.2 I saw that the feature of stdWrap was backported to 6.2 in the latest release. I checked it before on http://typo3.org/api/typo3cms/_fluid_template_content_object_8php_source.html#l00144 but this seems to be and outdated version of 6.2. So my assumption was wrong and this Bug should be closed.
