

## TYPO3.SwiftMailer - Bug # 64877

<b>Status:</b>	New	<b>Priority:</b>	Must have
<b>Author:</b>	Christian Wellinghorst	<b>Category:</b>	
<b>Created:</b>	2015-02-05	<b>Assigned To:</b>	
<b>Updated:</b>	2015-02-05	<b>Due date:</b>	
<b>Subject:</b>	SwiftMailer not autoloaded		
<b>Description</b>			
<p>It appears that Swiftmailer is no longer autoloaded since the externaler swiftmailer/swiftmailer package is used. Swiftmailer requires lib/swift_required.php to be executed - composer is able of doing this, according to the documentation Flow only supports PSR-0 autoloading.</p> <p>Simply requiring swift_required.php when loading the package appears to be sufficient to fix this issue.</p>
