

## TYPO3.Fluid - Task # 6521

<b>Status:</b>	Resolved	<b>Priority:</b>	Should have
<b>Author:</b>	Mam Violeng	<b>Category:</b>	ViewHelpers
<b>Created:</b>	2010-02-19	<b>Assigned To:</b>	Bastian Waidelich
<b>Updated:</b>	2010-10-20	<b>Due date:</b>	
<b>Has patch:</b>			
<b>Subject:</b>	form ViewHelper: add "objectName" argument that overrules name attribute		
<b>Description</b>			
The problem is related to XHTML Strict 1.0 validation which does not allow the attribute "name" for form tags, and when use id attribute instead of name then the function <code>\$this-&gt;request-&gt;getArgument('member')</code> does not work anymore ("member" is the name of the form).

### Associated revisions

#### Revision 8905c94a - 2010-07-26 16:23 - Bastian Waidelich

[~TASK] Fluid (ViewHelpers): Added argument "objectName" to form ViewHelper. This is now the recommended way to specify the name of the object that is bound to a form! If objectName is not specified, the name attribute will be used as object name for backwards-compatibility reasons. This resolves #6521

### History

#### #1 - 2010-06-18 15:10 - Sebastian Kurfuerst

- Project changed from Extbase MVC Framework to TYPO3.Fluid

#### #2 - 2010-07-12 12:52 - Bastian Waidelich

- Subject changed from Using id attribute instead of name in fluid form to Using id attribute instead of name in fluid form ViewHelper  
- Category set to ViewHelpers

#### #3 - 2010-07-19 21:38 - Bastian Waidelich

- Status changed from New to Needs Feedback  
- Assigned To set to Sebastian Kurfuerst  
- Branch set to v4 + v5

This is indeed a problem.. But using the id would be dangerous as the same id can't be used multiple times on one page. IMO we should not set any attribute to the object name at all - or why would we need that?

Instead we could rename the argument to **objectName** so you could still set the name attribute explicitly.. But that would be a breaking change..

Maybe we should add it in a backwards-compatible way so that **objectName** overrules **name**.

@Sebastian: If you agree, please re-assign this to me and I'll fix it asap!

#### #4 - 2010-07-19 21:40 - Sebastian Kurfuerst

- Assigned To changed from Sebastian Kurfuerst to Bastian Waidelich

Hey,

Bastian Waidelich wrote:
