Core - Bug # 65599

Status:	Closed	**Priority:**	Must have
Author:	stefan schreck	**Category:**	TypoScript
Created:	2015-03-08	**Assigned To:**	
Updated:	2015-03-08	**Due date:**	

TYPO3 Version:	6.2
PHP Version:	5.5
Complexity:	
Is Regression:	No
Sprint Focus:	

Subject:	After Update from 6.2.9 --> 6.2.10 TypoScript Snippet doesn't work anymore

Description

Kind of difficult to explain:

I have a TypoScript which gets me Images from tt_content from pages which are referrenced with "content_from_pid".

That worked for years in Typo3 4.7. Then adapted to 6.2.x and it worked.
Untill 6.2.10. came arround the corner.
Now it produces a white PAGE with no ouput nor error at all.

And I can't find any error in my Typoscript.
It would be nice if someone could see a relation to the NEW 6.2.10 Typo3 Update.

I post the TS in here, or should it be in a text file?

```
10 = CONTENT
10 {
  table = tt_content
  select {
      where = colPos = 2
      pidInList.field = content_from_pid
      pidInList.override.field = uid
      pidInList.override.field.if {
                  isFalse.field = content_from_pid
                  }
      max = 1
      orderBy = sorting
      selectFields = uid,image
      }
  renderObj = COA
  renderObj {
      10 = TEXT
      10.value = <div class="greyover" style="background-repeat: no-repeat;
      20 = FILES
      20 {
        references {
              table = tt_content
              uid.data = field:uid
              fieldName = image
```

```
                }
    renderObj = COA
    renderObj {
        5 = LOAD_REGISTER
        5.imageUID.data = file:current:originalUid // file:current:uid
        10 = IMG_RESOURCE
        10.stdWrap.wrap = background-image:url('|');
        10.stdWrap.required = 1
        10.file = GIFBUILDER
        10.file {
            XY = 320,89
            #backColor = #84B816
            10 = IMAGE
            10.file {
                import.data = register:imageUID
                width = 160c
                height = 89
                }
            20 = EFFECT
            20.value = gray | gamma = 2.0
            30 < .10
            30 {
               offset = 160,0
               }
        }
      }
    }
     30 = TEXT
     30.value = "></div>
    }
    }
```
