

powermail - Bug # 65792

Status:	Resolved	Priority:	Must have
Author:	Sandro Barbieri	Category:	
Created:	2015-03-17	Assigned To:	Alex Kellner
Updated:	2015-04-16	Due date:	
TYPO3 Version:	6.2		
PHP Version:			
Has patch:	Yes		
Subject:	No identifying value for object of class "" found.		
Description			
<p>After Upgrade from TYPO3 v6.2.10 to v6.2.11 with Powermail v2.2.0 I get an:</p> <p>"No identifying value for object of class "" found."</p> <p>in one powermail form (it's a selectable field with a list of years, see screenshot).</p> <p>Reverting to TYPO3 v6.2.10 solves the problem temporarily.</p>

Hi,

did you clean the caches in Install Tool after upgrading?

Alex

#2 - 2015-03-17 20:48 - Joerg W

I have done the same upgrade and got exactly the same error message with plugin version 2.1.17.

In the log I get:

Core: Error handler (FE): PHP Warning: get_class() expects parameter 1 to be object, array given in /home_pr1/g/o/gospelchor-winterthur.ch/typo3/typo3_src-6.2.11/typo3/sysext/fluid/Classes/ViewHelpers/Form/SelectViewHelper.php line 174

#3 - 2015-03-18 11:39 - Christoph Lehmann

Same error here. I cleared all caches.

```
diff typo3_src-6.2.10/typo3/sysext/fluid/Classes/ViewHelpers/Form/SelectViewHelper.php
typo3_src-6.2.11/typo3/sysext/fluid/Classes/ViewHelpers/Form/SelectViewHelper.php
158c158
<         if (is_object($value)) {
---
>         if (is_object($value) || is_array($value)) {
```

#4 - 2015-03-18 11:46 - Claus Fassing

I fix this for me by setting optionValueField to "value" in Select.html

```
<vh:Form.SelectField
options="{field.modifiedSettings}"
optionValueField="value"
property="{field.marker}"
class="powermail_field powermail_select {vh:Validation.ErrorClass(field:field, class:'powermail_field_error')}"
id="powermail_field_{field.marker}"
additionalAttributes="{vh:Validation.ValidationDataAttribute(field:field)}"
multiple="{field.multiselectForField}"
value="{vh:Misc.PrefillField(field:field, mail:mail)}"
/>
```

For me this looks more to be a bug of the SelectViewHelper as of Powermail.

I don't remember that the optionValueField attribute is a mandatory field.

#5 - 2015-03-18 11:53 - Claus Fassing

Thanks for the diff Christoph.

Looks like options can pass as array now but without a handle for the key assignment.

#6 - 2015-03-18 11:53 - Christoph Lehmann

works - thanks!

#7 - 2015-03-18 17:30 - André Wuttig

- File *SelectFieldViewHelper.patch* added

Here is my patch which changes the SelectFieldViewHelper to work under 6.2.11 I don't know if it is the best solution. Your way is also nice.

#8 - 2015-03-19 11:29 - Urs Braem

Same here. I was unable to apply the Patch by André, as I didn't even find the Select*Field*ViewHelper.

```
Changing      if (is_object($value) || is_array($value)) {
back to      if (is_object($value))
```

worked

#9 - 2015-03-19 11:32 - Urs Braem

Should and can this be moved to core?

#10 - 2015-03-19 11:52 - Marcus Schwemer

This should be change in the Core, since 6.2.11 introduces a breaking change.

Even post-verifies on gerrit of ACME-members state that it breaks: <https://review.typo3.org/#/c/36909/>

#11 - 2015-03-19 15:28 - Michael Schwarzenberger

I have the same prolem with 6.2.11 and powermail.

Afert change back to

```
if (is_object($value))
```

it is work for me, but the conditions and form work very slow.

Micha

#12 - 2015-03-19 19:12 - Gerrit Code Review

- *Status changed from Needs Feedback to Under Review*

Patch set 1 for branch **TYPO3_6-2** of project **Packages/TYPO3.CMS** has been pushed to the review server.

It is available at <http://review.typo3.org/37959>

#13 - 2015-03-20 09:56 - Alex Kellner

- *Assigned To changed from Sandro Barbieri to Alex Kellner*

- *% Done changed from 0 to 60*

- *Has patch changed from No to Yes*

Thx for all that spent time into that issue.

I also reviewed it and came to the solution that this is related to core.

I hope that TYPO3 6.2.12 will include this patch: <https://review.typo3.org/#/c/37959/2>

Sorry for this discomfort.

I will let this ticket open for all people who are searching for a solution.

#14 - 2015-03-25 14:53 - Stefan Neufeind

Core has merged the patch meanwhile. Just had to try it myself with a pre-6.2.12, which solved the problem. So as soon as 6.2.12 ships, we're fine :-)

#15 - 2015-04-16 11:01 - Alex Kellner
- *Status changed from Under Review to Resolved*
- *% Done changed from 60 to 100*

TYPO3 6.2.12 is available now.

This fixes this issue.

Thx to all reporter
