Subject:	Add autoplay option to		
Description			
To use the RenderingRegistry introduces with #61800 we have the option to render audio and video tags.			
#66366 adds a ViewHelper so you can use the Renderer classes in FE. What is missing is a convenient way for the editors to enable autoplay for a audio or video file the attach to a CE.			
In the file IRRE element a checkbox should be added to enable autoplay for a video/audio file.
