### History

#### #1 - 2015-05-20 17:15 - alexis nicolas

- Assigned To set to Markus Klein

#### #2 - 2015-05-20 17:51 - Markus Klein

- Status changed from New to Needs Feedback

I'm failing to reproduce this on latest master.

I installed DBAL and accessed the module, but no errors.

#### #3 - 2015-05-20 19:49 - Morton Jonuschat

Has already been resolved in master (commit ec5dad1 / #66642)

#### #4 - 2015-05-20 20:10 - Markus Klein

- TYPO3 Version changed from 7 to 6.2

Args... my mistake of course. I already looked at it today in the sources and saw that the code is not in master anymore.

Still I'm failing to reproduce it on 6.2. The module works as expected (besides looking awful ;-))

#### #5 - 2015-05-20 21:00 - Morton Jonuschat

Description says 7.2, Version field 6.2.

From Slack I know it's a 7.2 installation.

6.2 works OK for me too.

Alexis, your turn to give us info, what the issue might be. I currently believe that this is not a core issue.

**#7 - 2015-05-21 09:50 - alexis nicolas**

I applied patch from <http://review.typo3.org/39095> and problem solved in v7.2.

**#8 - 2015-05-21 11:43 - Markus Klein**

- *Status changed from Needs Feedback to Closed*
