<b>PHP Version:</b>			
<b>Has patch:</b>			
<b>Complexity:</b>			
<b>Subject:</b>	Improve error message in Property Mapper if type hint of method parameter is invalid		
<b>Description</b>			
<p>If the type hint or doc comment of a parameter / property of the target object is invalid, the property mapper doesn't notice but just passes it to Utility\TypeHandling which in turn throws an InvalidArgumentException.</p> <p>This exception could be caught and a more meaningful mapping error issued by the property mapper.</p>			

### Associated revisions

Revision fbc770ea - 2010-03-10 18:01 - Robert Lemke

[+FEATURE] FLOW3 (Property): The property mapper now issues a meaningful mapping error if the type hint or doc comment of a target setter is invalid. Resolves #6774
