

Core - Bug # 68416

Status:	New	Priority:	Should have
Author:	Loek Hilgersom	Category:	Fluid
Created:	2015-07-21	Assigned To:	Loek Hilgersom
Updated:	2015-07-21	Due date:	
TYPO3 Version:	7		
PHP Version:			
Complexity:	no-brainer		
Is Regression:	No		
Sprint Focus:			
Subject:	Recently merged fix for FLUIDTEMPLATE: New fallback paths miss stdWrap doesn't work correctly		
Description			
<p>The way the currently merged fix is implemented it will only work like this:</p> <pre>templateRootPaths { 10 = filename.html 10.wrap = full/path/ }</pre>			
<p>This makes it hard to use other types of TS objects. What it should do is this:</p> <pre>templateRootPaths { 10 = TEXT 10.value = filename.html 10.wrap = full/path/ }</pre>			
<p>Only using a value should also still work:</p> <pre>templateRootPaths { 10 = full/path/filename.html }</pre>
