

TYPO3.Flow - Bug # 6914

Status:	Resolved	Priority:	Should have
Author:	Karsten Dambekalns	Category:	Object
Created:	2010-03-18	Assigned To:	Karsten Dambekalns
Updated:	2010-10-20	Due date:	
PHP Version:			
Has patch:			
Complexity:			
Affected Flow version:			
Subject:	Static Object Container cannot handle optional arguments in constructors		
Description			
For a class Bar with 4 optional constructor arguments the code in the static object container looks like this: <pre>protected function c0294(\$a=array()) { \$o=new \F3\Foo\Bar(\$a[0],\$a[1],\$a[2],\$a[3]);</pre>			
If the arguments are not provided this leads to undefined index errors. The default values should be used instead.
