

TYPO3.Flow - Bug # 6967

Status:	Resolved	Priority:	Must have
Author:	Karsten Dambekalns	Category:	Configuration
Created:	2010-03-23	Assigned To:	Karsten Dambekalns
Updated:	2010-10-20	Due date:	
PHP Version:			
Has patch:			
Complexity:			
Affected Flow version:			
Subject:	ConfigurationManager does not return all settings if asked to do so.		
Description			
When calling getConfiguration() with a NULL \$packageKey the configurationManager is supposed to return all settings for all active packages. It does not do so, leading to errors later on (in my case in the StaticObjectContainer) due to missing settings.			

Associated revisions

Revision 6db66049 - 2010-03-23 14:51 - Karsten Dambekalns

[+BUGFIX] FLOW3 (Configuration): getConfiguration() now returns settings for all packages if asked to do so, fixes #6967.

[+BUGFIX] FLOW3 (Object): Interfaces with no known implementation but a factory can be used now, fixes #6968, relates to #6928.

[~TASK] FLOW3 (Utility): In environment we no longer prohibit access to to \$_SERVER, this makes use of third party code easier.
