**Subject:** UI Prototype: The action menu does not really work combined with frontend editing.

### Description

This bug is in the UI prototype of the TYPO3 v5 Backend. It can be reproduced in the following way:

- Click "edit" on the top action menu
- hover over an editable content element
- click "edit" on the editable content element
- now, the **top action menu** changes, not only the one in the content preview.

### History

#### #1 - 2010-03-25 16:08 - Sebastian Kurfuerst

- File *TYPO3v5\_BE\_prototype.png* added
- % Done changed from 0 to 100

The attached screenshot shows that now the action menu works as expected, as there are different items open in both action mens.  
(The eye-icons are just dummy images right now, so please ignore them ;-)

#### #2 - 2010-03-25 16:09 - Sebastian Kurfuerst

- Category set to UI
- Status changed from New to Resolved
- Assigned To set to Sebastian Kurfuerst
