Subject:	Wrong field in add/edit-form of Scaffolding			

Description

Hey,

I added two Objects A[Name, Vita] and B[Name, ->A]. When I try to create a new A-object using the extended ScaffoldingController, the form has an additional field tx_myext_pi1[newA][_localizationParentUid]. No matter if I fill something in or not, the error #1251730701: The value must be of type "Tx_MyExt_Domain_Model_A", but was of type "NULL". is shown.

History

#1 - 2010-09-02 17:16 - Sebastian Michaelsen

- Target version set to 0.1

#2 - 2011-01-07 08:31 - Rens Admiraal

- Tracker changed from Bug to Task

- Target version deleted (0.1)

- Parent task set to #11986

#3 - 2011-01-08 18:22 - Nico de Haen

- Status changed from New to Needs Feedback

- Assigned To changed from Sebastian Michaelsen to Nico de Haen

I cannot reproduce this. propbably it's obsolete since we changed the scaffolding process.

#4 - 2011-01-12 15:19 - Nico de Haen

- Status changed from Needs Feedback to Resolved

Related to old scaffolding process
