Updated:	2010-10-20	**Due date:**	

TYPO3 Version:	
PHP Version:	
Has patch:	
Subject:	Mandatory text field validation - "digits only" - error with 0 number

Description

I have a mandatory text field in my form. It has validation rule "digits only" set.

1. I've put "0" in this field and send the form.

2. Then an error occured "This field must be filled".

Other digits are working properly.
