Updated:	2010-10-20	Due date:	
PHP Version:			
Has patch:			
Complexity:			
Affected Flow version:			
Subject:	Manual: Correct spelling of initializeObject()		
Description			
I just copied the method from the manual and wondered why it didn't work ;)			
See here: http://flow3.typo3.org/documentation/manuals/flow3/flow3.objectframework/#id37760990			
In example 5.4, it says "initalizeObject()", but should be "initializeObject()".
