

TYPO3.Flow - Feature # 75

Status:	Resolved	Priority:	Should have
Author:	Robert Lemke	Category:	MVC
Created:	2007-12-10	Assigned To:	Robert Lemke
Updated:	2010-10-20	Due date:	
PHP Version:			
Has patch:			
Complexity:			
Subject:	Move T3_Framework_MVC_URI to a more fitting subpackage		
Description			
The T3_Framework_MVC_URI represents a URI and is not bound to the MVC framework. It better fits where other data types are located - e.g. in the Property subpackage.			

Associated revisions

Revision fef0d602 - 2008-02-12 15:49 - Robert Lemke

- FLOW3: (MVC) Specifying an unknown controller in the request URI resulted in exception 1187176358 which was misleading. Changed that so that the Default Controller is used instead. Needs some proper not-found-handling in the future. * FLOW3: (MVC) Moved the URI class to the Property module. Resolves #75.

Revision 99d92680 - 2008-02-12 16:10 - Robert Lemke

- FLOW3: Forgot to rename the URI testcase file in r486. Addresses #75.
- FLOW3: (Error) The "More Information" link will now only be shown if an exception code is available.
