

TYPO3.Fluid - Feature # 7618

Status:	Rejected	Priority:	Could have
Author:	Nikolas Hagelstein	Category:	Core
Created:	2010-05-04	Assigned To:	
Updated:	2013-03-19	Due date:	
Has patch:			
Subject:	Add support for nested evaluation.		
Description			
Currently it's not possible to do something like:			
<code>{myArray.{varContainingArrayKey}}</code>			

History

#1 - 2010-05-05 11:23 - Sebastian Kurfuerst

- *Priority changed from Should have to Could have*

Such a feature would have really far-reaching consequences, as the syntax would get a lot more complex. So before implementing that, we'd have to check the implications:

- for inline notation parameters
- for arrays

especially checking that the language stays non-context-sensitive like it is right now.

Greets,
Sebastian

#2 - 2011-05-06 10:30 - Sebastian Kurfuerst

- *Status changed from New to Rejected*

sorry, for now this feature would imply a complete restructuring of the Fluid parser...
