

## Extension Builder - Task # 7974

Story # 11986 (Closed): As an extension developer I want to find the extension builder in TER

<b>Status:</b>	Resolved	<b>Priority:</b>	Must have
<b>Author:</b>	Pascal Jungblut	<b>Category:</b>	Code Creation
<b>Created:</b>	2010-05-29	<b>Assigned To:</b>	
<b>Updated:</b>	2011-02-02	<b>Due date:</b>	
<b>Subject:</b>	Only one relation table for multiple relations		
<b>Description</b>			
<p>When I have a model, say, Group and add two relations: admins and members, these two relations will both be saved in tx_extkey_group_user_mm if User is the other model.</p> <p>Additionally the tx_extkey_group_user_mm table definition is twice in ext_tables.php. It would be nice if there is a check for that so that the kickstarter renames the tables to tx_extkey_group_*admin*_user_mm or similar.</p> <p>Or, if possible, this information could get saved in the tx_extkey_group_user_mm table, but I don't know if Extbase is capable of handling that information.</p>			

### Associated revisions

**Revision 2f199777 - 2011-02-01 23:23 - Nico de Haen**

[+TASK] Enables multiple relations from one model to the same foreign model

Either uses a naming convention tbl1\_field1\_tbl2\_mm or reads the MM table name from the TCA if the extension is already installed

Resolves #7974
