

Introduction Package - Bug # 8184

Status:	Resolved	Priority:	Should have
Author:	Ben van 't Ende	Category:	Install process
Created:	2010-06-12	Assigned To:	Michiel Roos
Updated:	2010-10-20	Due date:	
Subject:	typo3temp/ not writable		
Description			
After having written "ENABLE_INSTALL_TOOL" I get this message. Install Tool needs to write to typo3temp/. Make sure this directory is writeable by your webserver: /home/benvantend/domains/benvantende.com/public_html/typo3temp/			

History

- Status changed from New to Resolved

Installed package as root. Instructions need make clear you should not install the package as root

#2 - 2010-06-12 12:48 - Michiel Roos

added the following to the packaging script:

1. sanitize permissions

```
chmod -R g+w typo3temp/ typo3conf/ uploads/ fileadmin/
```

```
chown -R :www-data fileadmin/ typo3conf/ typo3temp/ uploads/
```
