Subject:	Implement getParent() and getPath() for structure nodes

Description

For the menu generation and various other purposes we need a way to determine the parent node of a given structure node and its absolute node path.

History

#1 - 2010-07-03 21:05 - Robert Lemke

- Status changed from Accepted to Closed

We can't implement something such as getPath or getParent because a node can potentially have multiple parents and paths.
