Updated:	2010-10-20	**Due date:**	

Subject:	Import content from a file

Description

It should be possible to import a site's structure and content from a file, this allows easier testing, distribution of demo content and migration.

Associated revisions

Revision 43ed2fe3 - 2010-06-16 12:10 - Karsten Dambekalns

[+FEATURE] TYPO3: We now have a somewhat better setup controller which allows to import content and create admin users, resolves #8284, resolves #8285.

[~TASK] TYPO3 (Domain): Removed early return from hasChildNodes() in AbstractNode.

[~TASK] TYPO3 (Domain): addChildNode() and getChildNodes() on Site only handle the 'default' section now.

[-TASK] TYPO3 (Domain): getIndexNode() no longer expects a section parameter and returns NULL if no node was found.

[+TASK] PhoenixDemoTypo3Org: Added Sites.xml with the test content.

[+TASK] FLOW3 (Package): added isPackageActive() to the PackageManagerInterface.

Revision c4d1a7ea - 2010-06-29 17:50 - Karsten Dambekalns

[~TASK] TYPO3: The setup controller now can handle arbitrary properties on content elements on import, relates to #8284, relates to #8285.
