

PHPCR - Bug # 83

Status:	Closed	Priority:	Must have
Author:	Robert Lemke	Category:	
Created:	2007-12-19	Assigned To:	Karsten Dambekalns
Updated:	2010-10-20	Due date:	

Subject: phpCR tests need cleanup

Description

There are a few issues with the phpCR tests. Among them:

- test case class names don't comply with the naming rules: phpCR_SomeTest instead of T3_phpCR_SomeTest
- @package annotations are mostly wrong, referring to phpCRJackrabbit
- some test methods are static
- some methods are not documented / lack doc comments

In general, some tests look more like functional tests than like unit tests - but I might be wrong with that.

History

#1 - 2008-01-10 19:05 - Karsten Dambekalns

- Status changed from New to Accepted

#2 - 2008-01-10 19:07 - Karsten Dambekalns

- Status changed from Accepted to Closed

- Sprint set to duplicate

This is more or less a duplicate of #49. I copied the relevant parts of this ticket there and resolve this one as duplicate.
