

Testing - Bug # 838

Status:	Resolved	Priority:	Could have
Author:	Christoph Blömer	Category:	
Created:	2008-06-20	Assigned To:	Karsten Dambekalns
Updated:	2010-10-20	Due date:	
Subject:	Images not working when Packages directory is not available from Web		
Description			
Info(Hint) for Revision 957:			
The images from testing are not available if the Packages directory is not available from web. I made a virtualhost "flow3" pointing on the Public directory and run the testing.			
http://flow3/testing			
The Image Path is:			
http://flow3/./Packages/Testing/Resources/Media/f3_logo.gif			
Resolution is to put the Icons into the /Resources/Public/ directory.			
And set the image path to:			
/Resources/Testing/Public/f3_logo.gif			
In the Packages Documentation it is also mentioned that you could place the files into the directory /Resources/Media/Public/ but it is not copied by the Resource Manager.			
Greetings Christoph

Revision 57b711d7 - 2008-08-08 20:33 - Karsten Dambekalns

Testing: Moved the used images into the public resources folder and adjusted the HTML output to fit the new paths. Fixes #838.
