TYPO3.Flow - Bug # 8485

Status:	Resolved	**Priority:**	Should have
Author:	Michael Schams	**Category:**	Security
Created:	2010-06-24	**Assigned To:**	Andreas Förthner
Updated:	2010-10-20	**Due date:**	

PHP Version:	
Has patch:	
Complexity:	
Affected Flow version:	
Subject:	Policies/ACLs do not work (anymore)

Description

Attached file ./Configuration/Policy.yaml does not work.

Issue (1)
line 13: keyword before pointcut expression has to read "methods" (with "s"), not "method" as documented in [1]. Keyword was "method" (without "s") before (in an older SVN revision).

Issue (2)
It's unknown how ACLs work now. Previously the syntax in file Policy.yaml was:

    acls:
      ROLENAME:
        RESOURCE_NAME: GRANT

This causes the following exception:

Notice: Undefined index: entities in /var/www/.../Packages/Framework/FLOW3/Classes/Security/Policy/PolicyService.php line 401

Removing the "acls:"-section from file Policy.yaml "fixes" the problem.

It's assumed that these two issues were introduced by changes in SVN between 23/June/2010 and 24/June/2010.

Example 13.10 "Example resources definition..."

Associated revisions

Revision aa673266 - 2010-06-24 15:32 - Andreas Förthner

[~TASK] FLOW3 (Security): Changed the example comments in FLOW3's Policy.yaml to reflect the new policy syntax structure. Resolves #8485.

History

#1 - 2010-06-24 15:10 - Michael Schams
- File issue8485-Policy-ACL.jpg added

Hmmm... **issue (1)** is not reproducible - maybe we can ignore this?

#2 - 2010-06-24 15:36 - Andreas Förthner

- Status changed from New to Resolved

- % Done changed from 0 to 100

Applied in changeset r4627.

#3 - 2010-07-15 13:35 - Karsten Dambekalns

- Category set to Security

- Assigned To set to Andreas Förthner

- Target version set to 1.0 alpha 10
