[+FEATURE] FLOW3 (Security): Implemented the "Everybody" role that is always applied in the security context and configured in the policy. Resolves #8544.

History

#1 - 2010-07-05 15:57 - Andreas Förthner

After discussing this we came to the following conclusion:

- You will always have a role called "Everybody", no matter, if you are authenticated or not.
- This role will be set in the policy by the policy service. So it is not overwriteable.

#2 - 2010-07-05 16:20 - Andreas Förthner

- Status changed from *Accepted* to *Resolved*
- % Done changed from 0 to 100

Applied in changeset r4761.
