*- Status changed from Accepted to Needs Feedback*

Hi Jochen and sorry for the late reaction.
I just tried to reproduce this and failed..

    <f:form.select options="{objects}"...

with {objects} being an ArrayObject of objects does not trigger an error on PHP 5.2.6.

Do you have an example at hand?

..of course I failed - it only occurs on 5.2.0

changing

```
foreach ($this->arguments['options'] as $key => $value) {
```

to

```
$options = $this->arguments['options'];
foreach ($options as $key => $value) {
```

should fix this.

*- Branch changed from v4 + v5 to v4*

Since it's only PHP 5.2 I change the branch to v4 only.
