

TYPO3.Flow - Feature # 8865

Status:	Resolved	Priority:	Should have
Author:	Dennis Ahrens	Category:	MVC
Created:	2010-07-14	Assigned To:	Karsten Dambekalns
Updated:	2011-07-06	Due date:	
PHP Version:			
Has patch:			
Complexity:			
Subject:	FlashMessage should become an object		
Description			
<p>Would be nice if a FlashMessage becomes an object :)</p> <p>Currently a FlashMessage is just a string.</p> <p>I think it would be nice to store more informations related to the message instead of the string. e.g. the DateTime it was created and type and maybe some other informtations which may be useful.</p> <p>There is a patch with a possible solution available for extbase:</p> <p>http://forge.typo3.org/issues/7098</p>
