<b>Sprint:</b>			
<b>PHP Version:</b>			
<b>Has patch:</b>			
<b>Complexity:</b>			
<b>Subject:</b>	Clean up View implementations		
<b>Description</b>			
<p>Currently there are four classes implementing F3\FLOW3\MVC\View\ViewInterface in the FLOW3 package: AbstractView, EmptyView, JsonView and NotFoundView.</p> <p>Some of them don't implement the interface correctly (assign() should return an instance of \$this to allow chaining). We decided to move the assignment functionality back to the AbstractView.</p> <p>Obviously the code should still only reference the interfaces.</p> <p>Besides, the AbstractView needs a cleaned up as it contains a lot of unneeded methods and objects.</p>

### Associated revisions

#### Revision 9c53e424 - 2010-08-06 16:21 - Bastian Waidelich

[+TASK] FLOW3 (MVC): Cleaned up View implementations. They no correctly implement F3\FLOW3\MVC\View\ViewInterface. This resolves #9136

#### Revision 38ee6af6 - 2010-08-12 12:35 - Bastian Waidelich

[+BUGFIX] FLOW3 (MVC): F3\FLOW3\MVC\View\JsonView no longer throws an exception if more than one variable is assigned. This relates to #9136

[+FEATURE] FLOW3 (MVC): F3\FLOW3\MVC\View\JsonView is now able to render multiple variables. By default only variables with the name "value" are rendered. You can change that behavior through the setVariablesToRender() setter. This relates to #9136
