PHP Version:			
Has patch:			
Complexity:			
Affected Flow version:			
Subject:	No NULL safe query method		
Description			
As mentioned in			
http://lists.typo3.org/pipermail/flow3-general/2010-May/000367.html			
there is no NULL safe query method.			
However, it is often required e.g. to find objects that have no parent or no children which is indicated by a NULL value in the respective fields.
