

TYPO3.Fluid - Bug # 9210

Status:	Rejected	Priority:	Won't have this time
Author:	Felix Oertel	Category:	ViewHelpers
Created:	2010-08-09	Assigned To:	
Updated:	2011-12-14	Due date:	2011-10-15
Has patch:			
Affected Flow version:			
Subject:	imageViewHelper should not throw exception		
Description			
Hey guys, i don't like the imageViewHelper to throw exceptions if an image is not found. it should behave like the underlying cObj::getImgResource() and just don't do anything. regards, foertel

History

#1 - 2010-08-09 12:37 - Felix Oertel

- File 9210.diff added

#2 - 2010-08-09 13:05 - Bastian Waidelich

- Project changed from Extbase MVC Framework to TYPO3.Fluid
- Target version deleted (Extbase 1.3.0beta1)

#3 - 2010-08-09 13:06 - Bastian Waidelich

- Category set to ViewHelpers
- Branch set to v4

#4 - 2010-08-09 13:08 - Felix Oertel

thanks a bunch ;-)

#5 - 2010-08-09 13:18 - Bastian Waidelich

- Status changed from New to Rejected
- Priority changed from Should have to Won't have this time

Currently all ViewHelper exceptions are caught and their message is outputted as string.

The corresponding code snippet in :

```
try {
    $output = call_user_func_array(array($viewHelper, 'render'), $renderMethodParameters);
} catch (Tx_Fluid_Core_ViewHelper_Exception $exception) {
    // @todo [BW] rethrow exception, log, ignore.. depending on the current context
    $output = $exception->getMessage();
}
```

}

As you can see, we're planing to improve the exception handling here. See #9211 for more details.

I'm closing this issue for now, feel free to reopen if you don't agree ;)
