

TYPO3.Fluid - Feature # 9429

Status:	Closed	Priority:	Should have
Author:	Dieter Müller	Category:	View
Created:	2010-08-24	Assigned To:	Sebastian Kurfuerst
Updated:	2011-05-06	Due date:	
Has patch:			
Subject:	f:render section with arguments		
Description			
Why only partials can use arguments ?			
I want to transfer some arguments to a sections, but i dont want to make every small peace of code a partial file. I think thats a little to much for smaller projects / templates.			
Use within section makes it possible to write small "functions" in one templatefile.

- Status changed from New to Needs Feedback

Hey,

please try this feature out in newest trunk, or the version which will be included in 4.5alpha1. This feature has been implemented in the meanwhile, I think.

Greets,
Sebastian
