Subject:	filter values in single link		
Description			
<p>Hello Dirk,</p> <p>you resolved bug 8368 by using the values with more care now. But I don't get the advantage of having the filter values in the links to the single view at all.</p> <p>I always try to get rid of unnecessary values because they only fill up the cache and might create duplicated contents which is bad for seo.</p> <p>If there is any scenario where people might need the values, you could switch that behaviour on or off with a TS variable.</p> <p>Cheers, Frank</p>			

History

#1 - 2010-08-30 22:51 - Dirk Wildt

- Due date set to 2010-08-30
- Priority changed from *Could have* to *Must have*
- Target version set to 3.4.2
- % Done changed from 0 to 100
- Estimated time set to 0.50

Dear Frank,

Sorry there was a big mistake. The published Browser 3.4.1 lost some bug fixes from 3.4.1 dev.

Please load down

- http://typo3-browser-forum.de/T3X_browser-3_4_2-z-201008300022.t3x

filter values will be removed from links to the single view.

Kind regards

Dirk
