

TYPO3.Flow - Bug # 9539

Status:	Resolved	Priority:	Must have
Author:	Robert Lemke	Category:	Security
Created:	2010-08-31	Assigned To:	Robert Lemke
Updated:	2010-10-20	Due date:	
PHP Version:			
Has patch:			
Complexity:			
Affected Flow version:			
Subject:	WebRedirect entry point does not work anymore		
Description			
<p>Since the changed behavior of AfterThrowing advices, the RequestDispatchingAspect does not catch AuthenticationRequired exceptions anymore. Therefore the security framework does not forward to the authentication entry point - or more clearly: On hitting http://host/typo3 you'll see an exception instead of the login screen.</p>

[~BUGFIX] FLOW3 (Security): Adjusted the RequestDispatchingAspect to new advice behavior

The RequestDispatchingAspect was still relying on the fact that After Throwing Advices would catch the exception of the advice method. Since that is not the case anymore, the respective advices needed to be refactored.

Change-Id: Ie18e224a10de227f80e16077b02b76c346dcaa62

Fixes: #9539
