

TYPO3.Flow - Bug # 9557

Status:	Rejected	Priority:	Should have
Author:	Bastian Waidelich	Category:	Persistence
Created:	2010-09-01	Assigned To:	Christian Müller
Updated:	2012-03-14	Due date:	
PHP Version:			
Has patch:	No		
Complexity:			
Affected Flow version: FLOW3 1.0.0			
Subject:	It's possible to persist multiple entities with the same identity properties		
Description			
<p>I annotated the "email" property of my test model with an @identity annotation. Now I would expect the persistence layer to prevent me from storing multiple instances with the same email in a repository.</p> <p>But that's not the case. Is that a (missing) feature or a bug?</p>
