Subject:	Table definition in cache_treelist not compliant with MySQL 5.0 strict mode		

Description

The table cache_treelist was introduced in revision 3947. The column treelist of type TEXT has a NOT NULL property which breaks MySQL 5 strict mode compatibility.
Removing the NOT NULL property fixes the issue.
#

     expires int(11) unsigned DEFAULT '0' NOT NULL,
     PRIMARY KEY (md5hash)
) ENGINE=InnoDB;
