Subject:	Improve Extension Manager -> Translation handling		

Description

I see two minor HCI issues in the Translation handling:

1. The status for each extension is very weird with its ??? and UPD. Only the title text tells, what's really going on. Replace the messages by explicit icons and maybe directly write it down in words.
    translation_update.png

1. The list of translations to fetch is ordered by the english translation, not by the localized. This leads to a weird order. Sort this by the localized text.

History

#1 - 2012-07-05 18:59 - Jens Hoffmann

- Status changed from New to Closed

Fixed in the current EM. Will be redone in the next EM anyway .. there for I close this issue.
